

NATIONAL INSTITUTES OF HEALTH

EPILEPSY RESEARCH PROGRAM

WILLIAM THEODORE, MD
Chief, Clinical Epilepsy Section

KAREEM ZAGHLOUL, MD, PHD
Principal Investigator, Functional and Restorative Neurosurgery Unit

SARA INATI, MD
Chief, EEG Section

PROTOCOL 01-N-0139

EVALUATION AND TREATMENT OF PATIENTS WITH EPILEPSY

OBJECTIVE:

To screen people with epilepsy for participation in research studies at the NIH. Qualified patients may receive additional evaluation and treatment for epilepsy.

ELIGIBILITY:

People with epilepsy older than 2 years of age may be eligible for participation.

PROTOCOL 14-N-0061

NONINVASIVE PRESURGICAL EVALUATION OF PATIENTS WITH FOCAL EPILEPSY

OBJECTIVE:

To understand the parts of the brain that may be involved in seizures and to study language and memory in people with epilepsy. Participants will have testing before and after surgery, including EEG, MEG, and MRIs.

ELIGIBILITY:

People with medically intractable focal epilepsy (age 8-65) and healthy volunteers who are able to have an MRI may be eligible for participation.

Q&A

WHERE?

The National Institutes of Health Clinical Center in Bethesda, MD, located on the Metro red line, Medical Center stop.

WHAT DOES IT COST?

There are no costs for participation or any tests associated with this research. Travel may be compensated.

HOW DO I KNOW IF I QUALIFY TO PARTICIPATE?

Eligibility varies by study. Study staff will evaluate potential participants to determine eligibility. Parents must give permission for minors to participate.

PROTOCOL 11-N-0051

SURGERY AS A TREATMENT FOR MEDICALLY INTRACTABLE EPILEPSY

OBJECTIVE:

To evaluate surgery as a treatment for qualified adults and children with epilepsy.

ELIGIBILITY:

People with medically intractable focal epilepsy older than 8 years of age who are willing to have brain surgery may be eligible for participation.

PROTOCOL 11-N-0039

PRX-00023 THERAPY IN LOCALIZATION-RELATED EPILEPSY

OBJECTIVE:

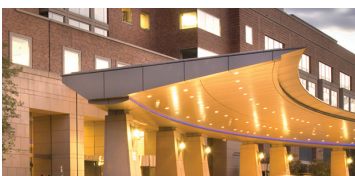

To evaluate the effectiveness of PRX-00023, a research drug, in reducing focal seizure frequency.

ELIGIBILITY:

People with medically intractable focal epilepsy (age 18-65) may be eligible for participation.

ADDITIONAL EPILEPSY STUDIES MAY BE AVAILABLE.
